

Lunch with Mala Murthy

Thursday, Jan 29

12:30 - 1:30 p.m.

Rock Hall
Auditorium 102
Mission Bay campus

Lunch provided!

Mala Murthy, assistant professor at Princeton, studies how the brain converts sensory stimuli into meaningful representations and how these representations drive behavioral responses.

At 4pm she presents in the Biochemistry & Neuroscience seminar series; over lunch, she will speak about her career and her advice to young scientists.

All students & postdocs welcome!
