

Tax Workshop - Parnassus

Date

March 26, 2015 -3:30pm to5:00pm

Location

Clinical Sciences Bldg Room 130

The Postdoc Office has organized this workshop to help you understand your tax obligations.

John Barrett, tax manager for the UC Office of the President, and a member of his staff will lead the discussion/workshop. Barrett will be presenting tax-related information specifically for students and postdocs who are paid via stipend. Barrett will also discuss general tax obligations as well as IRS and other resources you may turn to for help and information.

Please note that these meetings are specifically intended for postdocs who have a 3253 title code (postdoctoral fellow) and receive a stipend through UCSF and for postdocs who have a 3254 title code (postdoct paid-directs), as well as for students who are paid via stipend. The information presented will not pertain to postdoc employees (title code 3252) since their taxes are already deducted from their paychecks.

Note that international students and scholars have a unique tax situation. International tax issues will be thoroughly addressed by the International Students and Scholars Office's own, separate tax workshop. Please visit the [ISSO website](#) ^[1] for more information.
